[redacted] on 18 October 1950, metric ton reserves of locomotive coal were as follows:

Locomotive coal	Hard coal	Brown coal briquettes	Coal dust	Total
Service stocks	5,069	31,418	121	36,608
Emergency reserve	145,400	34,500	-	179,900
Total	150,469	65,918	121	216,508 *

* Comment. The stocks mentioned in this report are roughly a 12-day requirement. As compared with the last report on coal stocks available on 3 June 1950, [] there is a slight rise in reserves from 200,670 to 216,500 tons, the ratio of service coal to emergency reserves having shifted in favor of the latter category.

This document is hereby regraded to
CONFIDENTIAL in accordance with the
letter of 16 October 1973 from the
Director of Central Intelligence to the
Archivist of the United States.
